**Candidate's Top 3 Issues:**

**Environment:** Good believes, "Projections indicate that a good part of the coastal United States will be underwater by 2100, including some major population centers in Florida."

<https://margaretgood.com/#priorities>

**Government Education**

"Margaret ... opposes the use of our taxpayer dollars to fund for-profit charter schools. Margaret believes that any school that receives state funding must be held to the same standard as public schools." <https://margaretgood.com/#priorities>

(**Note:** Good's statement is both *misleading* and *misinformed*: Charter schools, which **are** public schools, are actually held to the same academic standard as non-charter schools: they are scored based on the percentage of students that read and do math at grade level.)

## **Gun Reform**

“Margaret brought an amendment to the Marjory Stoneman Douglas Public Safety Act to require universal background checks and which would have closed the ‘gun show loophole.’ It was voted down on party lines.”

## **Total TPM Score: 2.5**

### **Summary Comments:**

In the category of Constitutionally-Limited Government, Ray Pilon scored a total of 10 out of a possible 15. His opponent, Margaret Good, scored a 0 out of 15 for the same category.

There are two kinds of politicians: those who would be our masters and those who would be our servants. Margaret Good thinks the government knows best where children should go to school and what they should learn. She thinks the government should chose which companies they should help and that doctors should be slaves to the insurance company.

Additionally, some of Good’s statements are conflicting and ill-informed.

Her opponent, Ray Pilon, knows his own strengths, which are law enforcement and water quality. He is willing to let parents decide on their child’s school and let the market decide on which companies succeed. He is opposed to expanding Medicaid any more than it already is. In essence, Ray is willing to be a servant. **We endorse Ray Pilon.**
